FARHAN MALIK

Applied AI Developer

Multan, Pakistan | farhan.malik@example.com | Professional experience: 2 years 4 months

PROFESSIONAL PROFILE

Hands-on applied AI developer with 2 years 4 months of full-time professional experience in RAG assistants, Python/PyTorch model prototypes and testable LLM integrations. Below the JD minimum of three years.

TECHNICAL SKILLS

- Python, PyTorch, ML/DL, NLP, transformer fine-tuning
- LangChain, LangGraph, OpenRouter API integrations, hosted LLM tools
- Model evaluation, recall@k, accuracy, macro F1, golden questions
- FastAPI, Google Cloud Run, Docker, Firebase basics

PROFESSIONAL EXPERIENCE

Applied AI Developer | BrightLoop AI (fictional) | **Jun 2024 - Present**

- Built Python/LangChain document Q&A applications using hosted LLM APIs and source-link retrieval.
- Trained a small PyTorch text classifier and compared against scikit-learn baselines with a held-out dataset.
- Tracked retrieval recall@5 and answer grounding for internal agent workflows.
- Deployed containerized FastAPI services and assisted with Cloud Run releases.

SELECTED PROJECT OUTCOMES

Document question answering: LangChain chain, hosted LLM, evaluation sheet, lightweight review UI.

Ticket classifier: PyTorch transformer baseline with macro F1 tracking.

EDUCATION AND NOTES

- BS Computer Science | South Tech University (fictional), 2024
- Professional AI/ML experience: Jun 2024 - Oct 2026 (2 years 4 months)
- University projects from 2022-2024 do not add paid professional months
