ZAIN ASLAM

Junior Software Developer

Multan, Pakistan | zain.aslam@example.com | Professional experience: 1 year 9 months (general software)

PROFESSIONAL PROFILE

Junior application developer with 1 year 9 months of professional general web development. Interested in transitioning to applied AI and currently taking introductory ML, PyTorch and LangChain courses.

TECHNICAL SKILLS

- JavaScript, HTML/CSS, Node.js basics, Firebase Auth
- Python for scripting and university assignments
- Currently learning machine learning, deep learning, LangChain and NLP

PROFESSIONAL EXPERIENCE

Junior Web Developer | Quartz Interactive (fictional) | **Jan 2025 - Present**

- Built HTML and JavaScript front ends and maintained Node.js API integrations for web features.
- Configured Firebase authentication in a staging website and wrote Python scripts for file conversion.
- Did not implement professional NLP, deep-learning models, LangChain agents or production AI applications.

SELECTED PROJECT OUTCOMES

Coursework sentiment analysis: Following PyTorch tutorial notebooks; model not deployed or independently evaluated.

Student chatbot: Planned LLM integration, not yet implemented.

EDUCATION AND NOTES

- BS Software Engineering (in progress) | South Campus (fictional), expected 2027
- Only professional software tenure 1 year 9 months; no 3-year AI/ML engineering history
- Currently learning Google Cloud, LangGraph and medical imaging concepts
